NETBOX Fin

GOING NEW WAYS...

NETBOX Fin

Desktop Box made of elegant aluminum profile with covered cable exit. NETBOX Fin can be delivered in variable lengths with a wide range of over 200 NETBOX modules, so that there is no limit to suit your wishes and requirements

The innovative fixation affords mounting and dismounting on the tabletop without any difficulty or even damaging it. The mount is suitable for tabletops up to a thickness of 25mm. In addition to that our proven mounting set with Power-Strip® is also available as an alternative.

Soon our Website will present itself in a new guise. You will find the electrification units in the product range **NETBOX**.

Create your individual NETBOX configuration that fits your use out of 200 modules. In future the range **NETMODULS** will show up the possibility to realize your needs.
