

Variations of models and modules

A Individual lengths from 2 – 10 modules.

B Raised design protects against spilled liquids.

C Silver casing, modules black, red, white and grey. On demand casing in RAL chart colours.

D TFT monitor arm, fully traversable.

NETBOX Line

The aluminium profile features a subtle, harmonious design and fits elegantly into diverse furniture concepts.

It's a matter of course, that our products are approved to international standards.

Thanks to its small dimensions it can be fitted extremely space-saving in the furniture.

The tool-less fastening of the NETBOX Line with our proven ratchet mounting is particularly time-saving and efficient.

The large number of possible combinations allows individual, specialized solutions such as special national configurations without any additional effort.

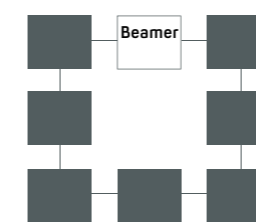

Variations of modules

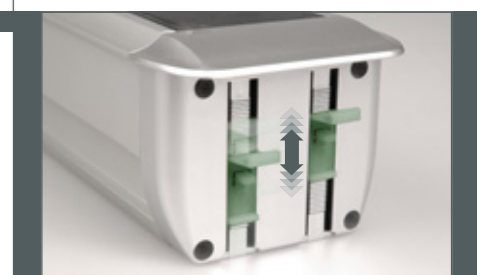

You can combine almost any variant of connections from our widespread product range for your individual requirement:

- Power
- Communications network
- Energy control
- Switches
- Protection
- Distribution
- Special solutions

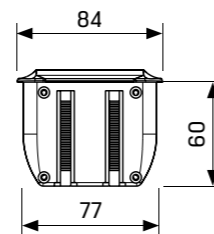

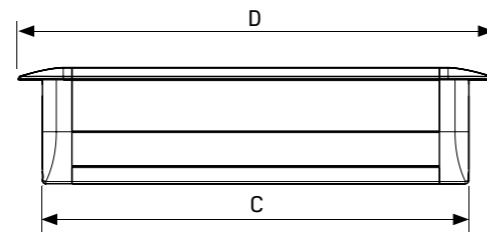

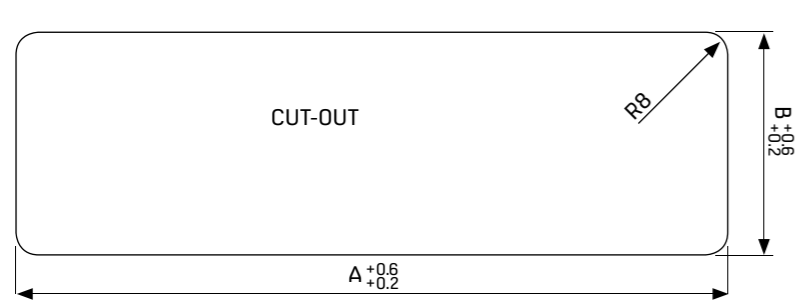

Please visit our website for complete selection overview:  
[www.ah-meyer.de](http://www.ah-meyer.de)

NETBOX Line in combination with the multimedia system allows quick and flexible connection to a comfortable conference round enabling all participants to access to a presentation medium.

Ratchet mounting minimizes installation time on site.
